## **Integra New Strategic Partner for Nexus Systems**

Arlington, VA (October 6, 2004) – Nexus Systems, a leading business process software company specializing in payables management solutions, announced today a strategic partnership with Integra Business Systems, a leader in document imaging and management solutions for the financial service and real estate industries. As strategic partners, Nexus Systems and Integra Business Systems will offer web-based document scanning, storage and retrieval services as a logical augmentation to the PayablesNexus payables management software system.

PayablesNexus automates the payables process, making it possible to receive invoices electronically from vendors, electronically convert scanned images into invoices, route electronic invoices for approval and send those invoices to the G/L system for payment. The integration with iDentifi.NET allows PayablesNexus users to further automate payables management by processing and indexing scanned invoices. Compatible with any TWAIN-compliant scanner, the iDentifi.NET scanning module empowers users to scan paper invoices and enter key information such as vendor and location name with easy-to-use drop-down lists populated from the PayablesNexus system. Once images are uploaded and indexed, the images are ready for processing and electronic approval routing through PayablesNexus.

“Combining our expertise in automating the payables process with Integra’s imaging and repository technology enhances Nexus Systems’ offering to the payables management market,” says Thomas L. Coolidge, CEO of Nexus Systems, Inc. “There is true synergy between the product capabilities of PayablesNexus and iDentifi.NET. And the ultimate winners of this strategic alliance are our customers. PayablesNexus users now have access to best-in-class document scanning, storage and retrieval.”

“This partnership brings exciting new functionality to iDentifi.NET,” adds Adam Yahre, VP of Marketing for Integra. “Accounts payable and document imaging are perfect fit”

For more information on PayablesNexus, or to see a demo of the product, contact Thomas A. Runyon, Senior Director of Sales at Nexus Systems at 703-524-9101.
